

Have you ever wondered how people in other parts of the world live?

What's their life like? What do they do?

Have you ever wanted to see Africa's countryside and wildlife?

Why Visit Uganda?

Join fellow travelers on a nineteen-day tour to Uganda. You'll learn about distant people and about yourself. Your life will be changed a little - or a lot. And you'll have fun!

Aid Africa Executive Director Peter Keller is taking a group to Uganda. We'll take a boat ride up the Nile to the base of the mighty Murchison Falls and spend a few days volunteering with the Aid Africa staff in the rural villages of Northern Uganda.

After twenty-two years of war and destruction, people have resettled their villages, found water, are raising crops and have re-established their communities. See how these new villages thrive and experience the strength of their human spirit!

But there's more! See the unequalled natural beauty of Sipi Falls, the Source of the Nile and the abundant wildlife of Murchison Falls National Park. The boat ride to the base of the falls will leave you in awe as you experience the hippos, crocs and African birds and other wildlife along the Nile.
